Pool House Terrace

MARSHALL MORGAN ERB DESIGN INC.

The name “Casino Marino” is derived from Italian which literally translates to “The small house by the small sea.” Inspired by the Dublin, Ireland folly of the same name, “Casino Marino” is the perfect way to describe one of the most charming features of Lansdowne, the pool house.

With its Classical exterior and graceful columns and arches, it takes us away to a fantasy of frivolity on hot summer days frolicking in the pool and finding respite in the shaded columned portico fanned by breezy curtains and exotic plantings. With furnishings selected to both delight the eye and relate to the classically inspired architecture and the welcome of spring seen in the palette of colors shown in the fabrics, accessories and plantings, the Casino Marino is meant to amuse and delight.
